

4. Fold the tab in half lengthwise, right sides together and serge the seam. Turn the tab right sides out and rotate it so that the seam is centered on the underside. Slip the tab through the opening in the turban seam. Fold up and stack tucks along the front seam from the lower band edge to the opening. (These tucks are similar to those at the back except they're stacked and not secured with stitching in the ditch.) Wrap the tab around the tucks and sew the tab ends by machine, right sides together. Rotate the tab seam allowance underneath the turban and tack it by machine to the center front seam allowance. This connection will prevent any see-through gap between the tab and the turban.

Note: We make mostly the medium size; the small size would fit a young teen. Vary the style with a contrast color band, especially if you're short of fabric. The tab is a natural place for embellishment (fabric rose, pin, button, or bow).

Please note that there are no additional photos or instructions available for this project and we do not have finished turbans available for sale.
